# Rohan Shrestha

Software Developer

## TRAINING/CERTIFICATIONS

### Swift for Professionals

NIIT / 2018

Learnt basics of web development and different programming languages (HTML, CSS, JavaScript, MySQL, PHP etc.). Completed many small projects.

## PROJECTS

### Firestore

A Game Store built using RAWG API for games data, ITAD API for prices of those games and Stripe for payments. Some of the features implemented are Skeleton Screens when loading data, Infinite Scrolling, Paginated Results etc.

<https://firestore-react-1aabd.web.app>

### Sudoku

A sudoku puzzle game with different difficulty, game modes (Timer, Countdown and Hints) and functionalities like pausing timer, marking incorrect numbers red, resetting board, showing solution etc.

<https://websudoku.netlify.app>

### Portfolio Site

My Personal Website built with Astro for fast website and good developer experience (DX) and Tailwind for styling.
